New Sponsor: Surfacide

‘Their Support Enables Us and Empowers You’

Hamilton – May 10, 2017: The Infection Prevention Strategy is pleased to announce that Surfacide has signed on to be a Silver Sponsor of the Pan-Access Journal InfectionControl.tips.

Surfacide headquartered in Waukesha, Wisconsin, understands that antibiotic resistance and infectious disease are serious threats and have taken the lead to work with us to support our Pan-Access efforts. Their support is a critical component toward our efforts and global teams. Working with us to provide independent and open access evidence based science. Their funding helps support other, unrelated scientific studies in our pay-it-forward model.

About InfectionControl.tips -

The Infection Prevention Strategy is a Not-For-Profit organization that operates both globally and locally. We perform scientific studies and evaluations. We promote and communicate results and experiences through our Pan-Access publication, InfectionControl.tips - www.IC.tips

About Surfacide -

Surfacide provides an evidence-based, automatic UV-C room disinfection system that eradicates multi-drug resistant organisms, including C.Diff, MRSA, VRE, CRE and Acinetobacter. The Surfacide Helios® system implements three

emitters into the patient environment to clean all areas of the patient room, including the bathroom and other hard-to-reach areas.

We are Pan-Access: **Free to Publish. Free to Access. Accessible Scientific Services.**
